

# Sun Fire™ E2900 Systems Getting Started

---

## Accessing the Sun Fire E2900 Documentation Files

The full documentation set for Sun Fire™ E2900 systems is available on the documentation CD (doc CD).

### 1. Insert the doc CD into a CD-ROM or DVD-ROM drive.

- If you are accessing the doc CD from a Power Macintosh, PC, or if your system is running Volume Manager, the CD-ROM will mount automatically.
- If your system is not running Volume Manager, become superuser and mount the CD-ROM manually by typing:

```
# mkdir -p /cdrom/cdrom0
# mount -o ro -F hfs /dev/dsk/c0t6d0s2 /cdrom/cdrom0
```

The above command applies to workstations with SCSI drives. If your workstation has an IDE drive, the device is `/dev/dsk/c0t2d0s2`.

- ### 2. Open the `cdrom0` directory to access the PDF files with Adobe® Acrobat Reader. If you do not have Adobe Acrobat Reader installed, you can download it at no cost, at: <http://www.adobe.com/products/acrobat/readstep.html>

# Installation Task Map for Sun Fire E2900 Systems Pre-Mounted in a Sun Rack

- 
- Step 1**
- Verify power, air conditioning, and floor area requirements — Refer to the *Sun Fire E2900 Systems Site Planning Guide*.
- 
- Step 2**
- Set up the Sun™ Rack and connect the power cables — Refer to the *Sun Rack Installation Guide*.
- 
- Step 3**
- Connect an administrative console to access the system controller — Refer to the *Sun Fire E2900 Systems Installation Guide*.
- 
- Step 4**
- Power on the Sun Rack — Refer to the *Sun Rack Installation Guide*.
  - Power on the individual systems — Refer to the *Sun Fire E2900 Systems Installation Guide*.
- 
- Step 5**
- Allow the system to run through POST and ensure there are no errors, then power off the systems and the Sun Rack.
- 
- Step 6**
- Power off the system — Refer to the *Sun Fire E2900 Systems Installation Guide*.
  - Power off the cabinet — Refer to the documentation that came with the cabinet.
- 
- Step 7**
- Install options and storage devices — Refer to the documentation that came with the option or storage device for details.
- 
- Step 8**
- Power on the Sun Rack — Refer to the *Sun Rack Installation Guide*.
  - Power on the individual systems — Refer to the *Sun Fire E2900 Systems Installation Guide*.
- 
- Step 9**
- Configure the system — Refer to the *Sun Fire E2900 System Administration Guide*.
  - Create additional domains (if needed) — Refer to the *Sun Fire Entry-Level Midrange Systems Administration Guide*.
- 
- Step 10**
- Install the Solaris software on each domain — Refer to the *Solaris Installation Guide*.
  - Boot the Solaris software on each domain — Refer to the *Sun Fire Entry-Level Midrange Systems Administration Guide*.

# Installation Task Map for Rackmounting Sun Fire E2900 Systems

- 
- Step 1**
- Verify power, air conditioning, and floor area requirements — Refer to the *Sun Fire E2900 Systems Site Planning Guide*.
- 
- Step 2**
- Set up the cabinet and connect the power cables — Refer to the documentation that came with the cabinet.
- 
- Step 3**
- Mount the system into the cabinet and connect power cables — Refer to the *Sun Fire E2900 Systems Installation Guide*.
- 
- Step 4**
- Connect an administrative console to access the system controller — Refer to the *Sun Fire E2900 Systems Installation Guide*.
- 
- Step 5**
- Power on the cabinet — Refer to the documentation that came with the cabinet.
  - Power on the individual systems — Refer to the *Sun Fire E2900 Systems Installation Guide*.
- 
- Step 6**
- Allow the system to run through POST and make sure there are no errors.
- 
- Step 7**
- Power off the system — Refer to the *Sun Fire E2900 Systems Installation Guide*.
  - Power off the cabinet — Refer to the documentation that came with the cabinet.
- 
- Step 8**
- Install options and storage devices— Refer to the documentation that came with the option or storage devices for details.
- 
- Step 9**
- Power on the cabinet — Refer to the documentation that came with the cabinet.
  - Power on the system — Refer to the *Sun Fire E2900 Systems Installation Guide*.
- 
- Step 10**
- Configure the system — Refer to the *Sun Fire Entry-Level Midrange Systems Administration Guide*
  - Create additional domains (if needed) — Refer to the *Sun Fire Entry-Level Midrange Systems Administration Guide*.
- 
- Step 11**
- Install the Solaris software on each domain — Refer to the *Solaris Installation Guide*.
  - Boot the Solaris software on each domain — Refer to the *Sun Fire Entry-Level Midrange Systems Administration Guide*.
